Color: different color combination is available

Material: Polycarbonate and Aluminum

Waterproof rate: IP65

Length: 6 lengths for choice

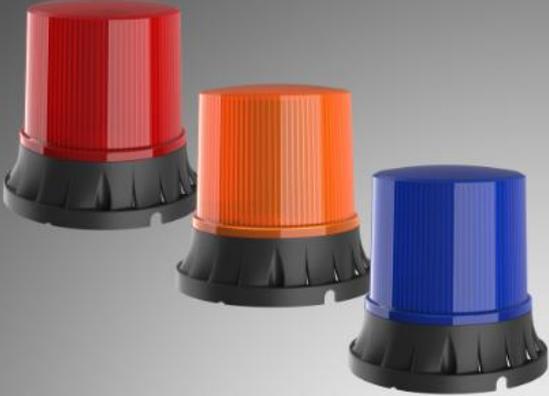

Mount: bracket, screw installation.

MUYE Beacon Warning Light

MSL02R

MSL02Y

MSL02B

We choose a suitable middle size--- $\phi 4$ " for our new beacons, with its creative and unique function---combined aural and visual alarm. Which means except traditional alarm sound, the beacon also has voice function. Customer can choose their language, and the voice content can be customized according to request. This feature enhances safety indication of beacons. Voice can give more obvious warning.

Voltage: DC12/24V, AC85-240V

Material: Polycarbonate and ABS

LED: 24*0.5W

Flashing pattern: 6

Operating temperature: -20°C—+50°C

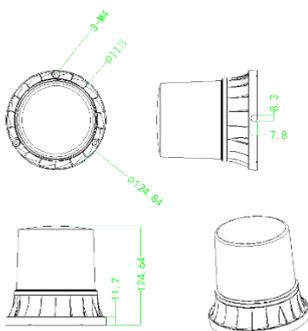

Waterproof Rate: IP65

Dimension: $\phi 100 \times 135\text{mm}$

Weight: 400g

OEM: Available

Warranty: 12 months
