

MUYE LED HIGH BAY LIGHT

Wattage:

100W/150W/200W/240W

Application area:

Workshop, factory building, storehouse, greenhouse, highway toll station, etc.

Product features:

1. Epistar chip, high lighting effect, high color rendering index, low luminous decay, pure light color, no ghosting energy conservation and environment protection.
2. Good heat dissipation and long lifespan.
3. Special surface treatment technology, beautiful in appearance, simple installation, convenient installation and wide application scope.

Introductions to the Light's Exterior Structure

Product Feature:

Wattage: 100W/150W/200W/240W

Input Voltage: AC85-277V

Material: Polycarbonate and Aluminum Housing

Light Efficiency: 120-170LM/W

Beam Angle: 60°/90°/ 120°

Color temperature: 3000K-6500K

Ra:> 80

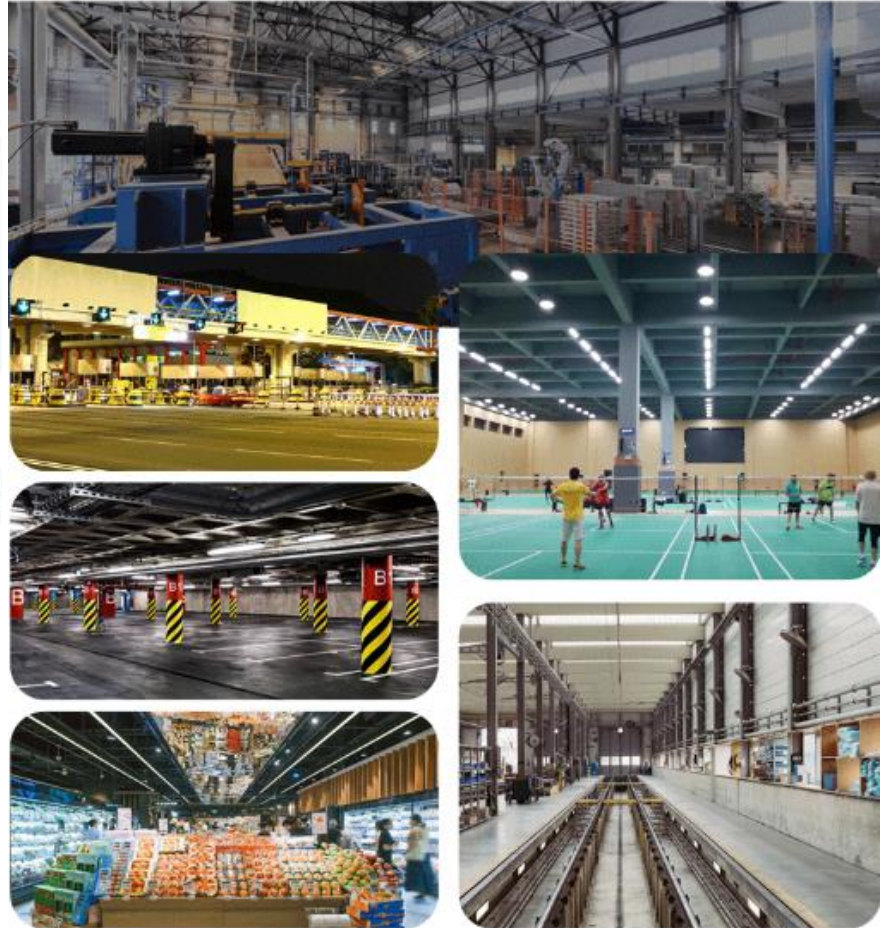

Waterproof Rate: IP65

Remark: LED Beads and driver can be customized and promoted to Philips.

LED high bay light Application scenarios

(Workshop, factory building, storehouse, greenhouse, highway toll station, parking lot, Exhibition halls, stadiums, shipyards, gas stations, supermarkets, farmers' markets, etc.)

Installation Method

Method 1: Hook

Method 2: Ring

Product name: Led Flexible Display Screen/Led Pixels Panel
Car Rear Window Expression Light/
Flexible Advertising Screen

Feature: **Bendable, very thin and light, can be bent and folded arbitrarily, waterproof.**

Power supply: USB

Control Mode: Mobile APP

Material: PVC + LED

Color: 7 colors

Waterproof: IP65

Components: **3M Adhesive Tape**

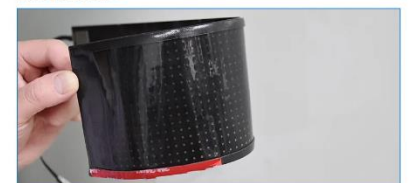

OEM: Available

Warranty: 12 months

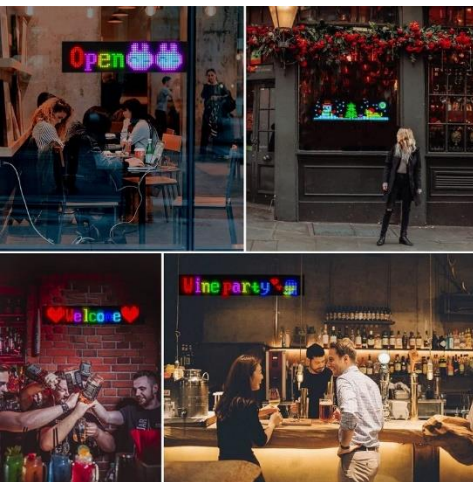

Extra Strong Self-adhesive and Heat-resistant Baking
We develop new adhesive materials to provide appropriate tack, excellent heat resistance and durability

LED soft flexible display screen Application scenarios

(Car, Bus, Advertising publish, retail store, shopping mall, welcome display, self-service business, exhibition hall, wayfinding, airport, subway, elevator, Restaurant & Hotel Supplies, education, medical treatment, etc.)

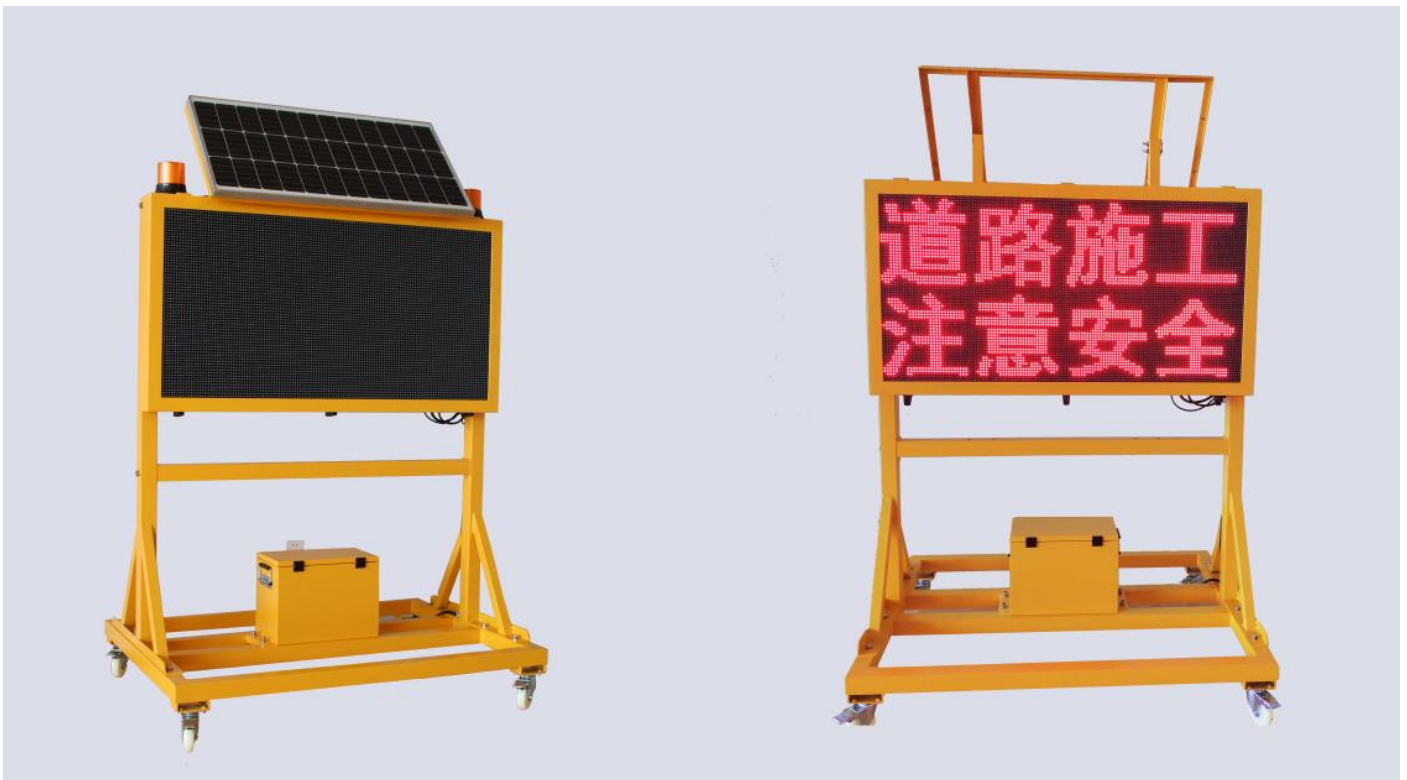

Packing:

- 1* Led Pixels Panel
- 1* Usb Cable
- 1* 3M Adhesive Tape
- 1* User Manua

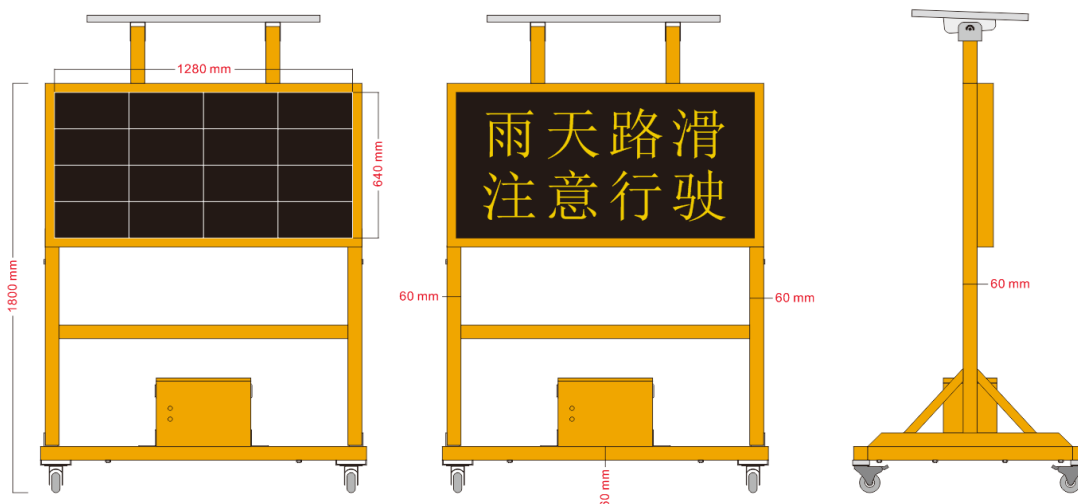

1. **【Bright and colorful lights】** The LED matrix uses 2121 full-color RGB lamp beads. This high-quality LED matrix can not only emit high-intensity light but also has low power consumption, and the full-color effect will be brighter and more attractive.
2. **【Smart APP Control】** Connect the LED matrix through the APP, you can DIY design text, patterns, animations according to your own needs and scenes, and you can also adjust the brightness and speed to perfectly meet your needs.
3. **【Flexible Circuit Board USB Plug Design】** The LED matrix is thin and light, and can be bent and folded at will, the usb plug design is more portable and has a wider range of applications, 3m tape is also included in the product, which can be attached to the wall or other objects as you like.
4. **【IP65 Waterproof】** The LED matrix adopts the epoxy water-proof technology, and a layer of colloidal resin is added on the surface of the LED matrix to better protect the internal lamp beads, which not only increases the service life of the LED matrix, but also reaches IP65 waterproof.

MUYE LED Display Panel with Warning Light

Product Feature:

- 1- A mobile display screen is composed of a box and multiple modules.
- 2- The cabinet has a front-opening design, making it easy to open the display for inspection and maintenance.
- 3- The display is powered by solar energy.
- 4- The entire product can be moved to different locations at any time through the wheel base below.
- 5- The display screen receives information released by the monitoring, computer, smart phone and can display Chinese, English, numbers, icons, etc, the control unit can store at least 100 pieces of information.

Rechargeable high brightness – LED strobe flying signal lighting for paramotor and paraglider

Product Description

3 Modes

- * Simultaneous sides strobe
- * Alternating sides strobe
- * Continuous lighting (front side only)

How To Use It

- On/Off hold 3 sec
- Mode selection hold 1 sec

*You can attach them to your wing,
the risers, your cage, harness,
etc...
Sky is the limit!*

- Long Lasting Lithium Battery
- 12 Powerful LEDs
- ON/OFF - Mode Button
- Mini-USB Charging Port
- Rechargeable Lights
- Red / Green/White/Blue/Amber
OR two colors combination
- Last up to 2.5hrs
- Dimension: 2.5 x 1 x 0.5 in (5 x 3 x 1cm)

Weighs only 40 grams!

Upon receiving, charge the strobe light. The red light switches to green when fully charged.

MUYE LED strobe signal lighting for policeman, sanitation worker, rider, jogger, security personnel

Clip type

Hook type

Voltage: DC3.7V / AC 85-240V

Charging method: USB

Battery: 500mAh lithium battery

Material: Polycarbonate and ABS

LED: 2835 Beads*8, little beads*12

Flashing pattern: 6

Waterproof rate: IP65

Operating temperature: -35°C—+65°C

Dimension: 79mm*40mm*21.5mm

Weight: 68g

MUYE LED snail strobe warning light for Cars

1.This piral lens make the light spread more evenly.

2.The piral lens improved visibility from the front and sides with a wider light emission.

Product Feature:

Novel snail shape and spiral lens make the light spread more evenly

- Dimension: 186mm*142mm*124mm
- Voltage: DC12V/24V, AC85-240V
- Current: 600mA/300mA
- LED: 18 BEADS
- Mode: On/Flashing
- Installation: **Magnet** (diameter 88mm magnet)
