

**PROFESSIONAL ODM & OEM MANUFACTURER
LED WARNING LIGHTS**

Qingdao MUYE Vehicle Assembly Co.,LTD.
www.signalchn.com

Company Profile

Qingdao MUYE Vehicle Assembly Co., Ltd is specialized in design and manufacturing of police light bar, emergency warning lighting and special vehicle lamp. We wholly own a professional and standardized factory. Our broader business group engages in design & manufacture of plastic injection mould and injection molding parts and mechanical equipment and medical instruments etc.

Please be noted that we are making premium degree of light bars, completely in line with Japanese standards. Low quality products which are teeming in the market, will not come out of our factory. Owing to state-of-the-art design, optimized supply chain which only takes in top quality brands, strict and meticulous QC, well equipped workshop, a series of testing instruments and trained & skilled workers who are receiving regular training sessions, quality of our light bars keeps at a high level. Each light bar will go through a series of examination and testing before delivery to ensure quality consistency. After 8 years endeavor, we have taken a large portion of Japanese market.

We have a broad range of warning lights for your choice. Given a large quantity, we are able to customize warning bars for you.

We are looking forward to establishing a friendly and long-lasting partnership with your esteemed company and supplying our good looking and superb-functioning light bars to your markets and helping build a better community.
